

# HOLIDAY FARM FIRE

## SOIL TESTING FOR HOME GARDENS

Free Home-Garden Soil Testing for residents living within the Holiday Farm Fire Burn area begins on Feb 1 and goes through June 1, 2024 (one soil sample per household), with test results provided in time for garden preparation. The home-garden soil tests will test for nutrients and Ph balance, and test results will include information on soil deficiencies and recommended inputs. **The UWSWCD will provide a limited number of free home garden soil tests for 2024. This is a first come, first serve program.**

**Instructions:** 1) Fill out this form 2) Attach the form to your **quart size** soil sample bag to ensure you receive your test results. 3) Label your sample bag with your last name using a sharpie pen. 4) The Soil Samples are picked up every other Friday starting on February 9 and ending May 31 from the locations listed on our website, and delivered to the Upper Willamette SWCD for processing. 5) Your soil analysis results will arrive via your email or alternative delivery options (please indicate your preference below) within approximately four weeks of pick up.
