Spring 2024

Greetings, Educators!

We are very pleased to announce that the Upper Willamette Soil & Water Conservation District will once again be sponsoring the National Association of Conservation District's Annual Poster Contest, open to all students K-12. We serve as the local sponsors of the contest, providing poster material to entrants, and collecting and judging all entries. The winning entry for each age division will be sent on to the state level, and each winner will receive a prize for themselves and their classroom. Winners at the state level will be sent on to the national level.

The 2024 theme is "May The Forest Be With You Always" in celebration of resilient forests, which are indispensable in fostering a sustainable world.

We hope you and your students will find this to be an exciting and engaging project at the start of the new school year. Poster materials will be available to pick up at our office starting in mid-August. We have a form on our website where you can sign up and let us know how many entries you estimate that you will need. Please sign up no later than August 16th.

Entries will be due by September 27, 2024 and local winners will be announced by October 7th. Judging at the state level usually takes place in late October or early November. We will keep you updated. For more information and to sign up for materials, please visit: www.UWSWCD.org/resources/poster-contest.

Best regards,

Cricket DeLoe
